

# Table of Contents

## Part 1: Cover

Cover ..... 2

## Part 2: Part I · Brains & Inspiration

ch01\_intro ..... 3

ch02\_neuro\_foundations ..... 26

ch03\_spatial\_navigation ..... 38

ch04\_perception\_pipeline ..... 56

## Part 3: Part II · Brains Meet Math & Data

ch05\_brain\_networks ..... 100

ch06\_neurostimulation ..... 131

ch07\_information\_theory ..... 166

ch08\_data\_science\_pipeline ..... 215

## Part 4: Part III · Learning Machines

ch09\_ml\_foundations ..... 264

ch10\_deep\_learning ..... 308

ch11\_sequence\_models ..... 364

## Part 5: Part IV · Frontier Models

ch12\_large\_language\_models ..... 453

ch13\_multimodal\_models ..... 522

## Part 6: Part V · Ethics & Futures

ch15\_ethical\_ai ..... 545

ch16\_future\_directions ..... 571

## **Part 7: Part VI - Advanced Applications**

ch17_bci_human_ai_interfaces .....	618
ch18_neuromorphic_computing .....	650
ch19_cognitive_neuro_dl .....	667
Case Studies in NeuroAI .....	710
ch21_ai_for_neuro_discovery .....	751
ch22_embodied_ai_robotics .....	782
ch24_quantum_computing_neuroai .....	818
ch23_lifelong_learning .....	857

## **Part 8: Appendices**

math_python_refresher .....	879
dataset_catalogue .....	913
colab_setup .....	949
