

The Neuroscience of AI

THE NEUROSCIENCE OF AI

Richard Young

2025

Table of Contents

Part 1: Part I: Brains & Inspiration

- Intro
- Neuro Foundations
- Spatial Navigation
- Perception Pipeline

Part 2: Part II: Brains Meet Math & Data

- Brain Networks
- Neurostimulation
- Information Theory
- Data Science Pipeline

Part 3: Part III: Learning Machines

- ML Foundations
- Deep Learning
- Sequence Models

Part 4: Part IV: Frontier Models

- Large Language Models
- Multimodal Models

Part 5: Part V: Ethics & Futures

Ethical Ai

Future Directions

Part 6: Part VI: Advanced Applications

Bci Human Ai Interfaces

Neuromorphic Computing

Cognitive Neuro DI

Case Studies in NeuroAI

Interactive NeuroAI Case Studies

AI-Assisted Learning with Jupyter AI

Creating Presentations with RISE

Ai For Neuro Discovery

Embodied Ai Robotics

Quantum Computing Neuroai

Lifelong Learning

Part 7: Appendices

Glossary

Math Python Refresher

Dataset Catalogue

Colab Setup
